SUMMARY

I'm a designer dedicated to creating user-centered digital experiences. I have experience in interface design, prototyping, intuitive navigation flows, detailed wireframes and usability testing. I hold a bachelor's degree in Design and Visual Communication and a postgraduate degree (MBA) in Project Management. I always aim to apply my knowledge to build solutions that make a difference and deliver meaningful results for the product and its users.

PROFESSIONAL EXPERIENCE

LM CURSOS DE TRÂNSITO **10/2025 – present**

Web Designer, working as UX/UI Designer

- UX/UI for the website, app and checkout of 4 education products: Oficina Concursos, LM Cursos de Trânsito, Facilita CNH and EasyMath.
- Design of promotional landing pages for web and mobile.
- Wireframes and design flows: detailed wireframes for mobile and web interfaces, mapping user journeys, defining visual hierarchy and validating navigation flows before prototyping.
- Analysis and improvement of web and mobile experiences: reviewing layout, visual hierarchy and copy to make navigation clearer, more intuitive and conversion-focused.

CLUBEE **07/2024 – 10/2025**

UX/UI Designer · Freelance

- Helped prepare and organize project documentation.
- Created wireframes and low-fidelity prototypes for the initial representation of the interfaces.
- Designed high-fidelity prototypes and interfaces, ensuring an accurate visual representation of the final product.

CRIA DEV **04/2024 – 09/2024**

UX/UI Designer · Freelance

- Conducted user research and needs analysis, identifying problems and opportunities.
- Facilitated collaborative ideation sessions to generate creative solutions.
- Built low- and high-fidelity prototypes to validate concepts.
- Collaborated with development teams to ensure accurate design implementation.

GALPÃO DA SOPA **04/2024 – 08/2024**

UI Designer · Freelance

- Restructured the nonprofit's website: reviewed and updated content to accurately reflect its mission, vision and current projects.
- Standardized the visual identity: consistent color palette, typography and graphic style for clear, coherent communication across all materials.
- Refined the logo: modernized the existing logo while keeping the nonprofit's essence and identity.

RIO DE JANEIRO STATE PUBLIC PROSECUTOR'S OFFICE **08/2019 – 08/2020**

Designer

- Developed the visual identity of dashboards, ensuring a cohesive, intuitive and user-centered experience.
- Created printed materials and stickers reflecting the brand identity, keeping visual consistency across all touchpoints.

GRAPHIC DESIGN STUDIO **04/2019 – 08/2019**

Designer

- Contributed to the visual identity of Estácio de Sá University's Graphic Design Week, resulting in a memorable brand aligned with the event's goals.
- Helped create reusable materials for Estácio de Sá University's internal use, ensuring efficiency and visual consistency across projects and departments.
- Collaborated with multidisciplinary teams to deliver design solutions.

EDUCATION

FACULDADE DESCOMPLICA **2022 – 2023**

Postgraduate degree (MBA) in Project Management

- Topics: project management fundamentals, agile project management, project management techniques and tools (models, methods and artifacts).

UNIVERSIDADE ESTÁCIO DE SÁ **2017 – 2021**

Bachelor's degree in Design and Visual Communication

- Topics: visual communication and design.

ADDITIONAL COURSES

INTUITIVE PIXEL **2026**

UI/UX Best Practices and Applied Techniques

- Topics: user interface design, interface prototyping, design patterns and digital interface development.

DESIGN CIRCUIT **2024**

Design Metrics

- Topics: product metrics, defining and applying hypotheses, user sampling and segmentation, A/B testing.

MÔRE **2023**

Digital Accessibility

- Topics: accessibility fundamentals, accessible content, accessible research and design.

DESIGN CIRCUIT **2021 – 2022**

UX Design

- Topics: methodology and processes, UX research, competitor analysis, personas, surveys, feature prioritization, concept and UI design, Nielsen's heuristics, Business Model Canvas, design patterns, affinity mapping, how might we, customer journey, prototyping and usability testing.
